
List of tables

Table 1	
MIRAN hardware list	8
Table 2	
MIRAN capacity options	9
Table 3	
MIRAN channel capacity options	31
Table 4	
MIRAN voice storage capacity expansion	32
Table 5	
Characteristics of the multi cross-connect channel	33
Table 6	
MIRAN power requirements	34
Table 7	
Backplane power available (per card slot)	34
Table 8	
Terminal-based OA&M access for different system options	36
Table 9	
NT8D37 IPE Module MIRAN pair termination (I/O panel to MDF cable)	44
Table 10	
NT8D37 IPE Module: NTAG36 MIRAN external cross-connect channels	45
Table 11	
Defines a continuous RAN route	64
Table 12	
Defines a multi-channel start/stop RAN route	65

Table 13	
Defines an immediate start or start/stop RAN route	66
Table 14	
Add or change conference loop for MOH	67
Table 15	
Defines music-on-hold route	68
Table 16	
Configuring telephone set-based OA&M access route	69
Table 17	
Configuring the telephone set-based OA&M trunk data block	70
Table 18	
Configuring the MIRAN trunk data block for RAN and MOH	71
Table 19	
Option 11C pass-through configuration	72
Table 20	
Option 11C CEMUX access configuration	73
Table 21	
Port/channel number assignments for telephone set-based OA&M . .	95
Table 22	
A telephone set-based MMI example	97
Table 23	
OA&M voice segment files, their content, and duration	98
Table 24	
Terminal configuration parameters	109
Table 25	
MIRAN disk drives	147
Table 26	
Channel designations	147
Table 27	
OA&M command summary	148
Table 28	
MIRAN self-test sequence	168

Table 29	
Commands to enable/disable and test MIRAN channels	169
Table 30	
MIRAN equipment problems	171
Table A-1	
Faceplate mini-DIN connector signals	180
Table A-2	
RS232 port pinouts and wire color code on the 50-pin connector	181
Table A-3	
DID route configuration example using LD 16	182
Table A-4	
DID configuration example	184
Table A-5	
Analog port backplane signals	185
Table A-6	
MIRAN cross-connect port MDF signals	186
Table A-7	
NTAG81CA/DA modem cable RS-232 pinouts	186
Table A-8	
I/O panel connector to modem cable pinouts	187
Table B-1	
Temperature-related specifications	190
Table B-2	
Safety regulations	191
Table B-3	
Electro-Magnetic Emissions	192
Table B-4	
Electro-Magnetic Immunity	193
